

User Manual

INSIDE THE BOX

- Device
- Power adaptor

Plug IN YOUR DEVICE

Plug the included power adapter into Echo and then into a power outlet. A blue light ring will begin to spin around the top. In about a minute, the display will turn on and Alexa will greet you.

DOWNLOAD THE ALEXA APP

Download the free app to your phone or tablet. Start the download process in your mobile browser at: <http://alexa.amazon.com> Opening the app will immediately start the setup process. During setup, you will connect Echo to the Internet, so you will need your Wi-Fi password.

ECHO KNIGHT DISPLAY

Your Echo Knight will automatically wake up when you walk in the room or interact with Alexa, and knows when to turn off to conserve power when you're done.

GETTING TO KNOW YOUR ECHO KNIGHT

- Microphone/Camera off button

Press this button to turn off the microphones and the camera. The LED indicator will turn red. Press the button again to turn the microphones and the camera back on.

- Volume up and down buttons

Turn up the volume by pressing the + button. Turn down the volume by pressing the - button

To learn more about Echo Knight, go to "Help" in the Alexa App.

WHERE TO PUT YOUR KNIGHT

Knight works best when placed in a central location, at least eight inches from any walls. You can put Knight in a variety of places—on a kitchen counter, the end table in your living room, or a nightstand.

TALKING TO KNIGHT

To get Echo Knight's attention, simply say "Alexa." See the Things to Try card to help you get started. "Alexa" is the word you say to get Knight's attention. Say this "wake word" and then tell Knight what you want to do. You can change your wake word to "Amazon" or "Knight" from the Alexa App.

ALEXA APP

The app helps you get more out of your Knight, and is available for Fire OS, Android, iOS, and web. You can use the app to manage your contacts, lists, music, settings, and see an overview of your requests.

THINGS TO TRY

The “Things to Try” card included in this guide provides examples of things you can ask Knight. Keep this card to help you get started.

GIVE US YOUR FEEDBACK

Alexa will improve over time, giving you access to new features and ways to get things done. We want to hear from you about your experiences. Use the Alexa App to send us feedback or e-mail echoknight-feedback@amazon.com.

Product Information

Safety and Compliance Information

Using Your Device Around Other Electronic Devices

The Device, uses, and can radiate radio frequency (RF) energy and, if not used in accordance with its instructions, may cause interference to radio communications and electronic equipment. External RF signals may affect improperly installed or inadequately shielded electronic operating systems, entertainment systems, and personal medical devices.

While most modern electronic equipment is shielded from external RF signals, if in doubt, check with the manufacturer. For personal medical devices (such as pacemakers and hearing aids), consult with your physician or the manufacturer to determine if they are adequately shielded from external RF signals.

There are some places where RF signals could constitute a hazard, such as health care facilities, and construction sites. If you are not sure, look around for signs indicating that two-way radios or mobile phones should be turned off.

FCC Compliance Information

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications that are not expressly approved by the party responsible for compliance could make the device no longer comply with the FCC Rules.

Information Regarding Exposure to Radio Frequency Energy

The output power of the radio technology used in the Device is below the radio frequency exposure limits set by the Federal Communications Commission of the United States (FCC) and Industrial Canada for an uncontrolled environment.

Recycling Product Properly

In some areas, the disposal of certain electronic devices is regulated. Make sure you dispose of or recycle the Products in accordance with your local laws and regulations. For information about recycling the Products can be found in the Legal & Compliance section of the Setting menu on your Fire tablet.

IC Statement

This equipment complies with IC RSS-102 RF exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator & your body.

Déclaration d'exposition aux radiations:

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

The device for operation in the band 5150–5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement."

Les dispositifs fonctionnant dans la bande de 5 150 à 5 250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux.

CAN ICES-3(B)/NMB-3(B)

Product Specifications

Equipment name: Digital Media Receiver

Model: VN94DQ

Ports: Power Port

Power: 12VDC 1.25A output power adapter (Sold in-box)

Audio — 3.5 mm stereo jack and integrated mono speaker.

Operating temperature — 32°F to 95°F (0°C to 35°C).

Connectivity — Dual Band Wi-Fi (2.4 GHz&5 GHz); 802.11a/b/g/n/ac; BT 3.0, BLE 4.1

Operating frequency-

WLAN 2.4GHz: 2412 - 2472 MHz

WLAN 5GHz: 5150–5250 MHz, 5250–5350 MHz, 5470–5725 MHz, 5725–5850 MHz

Bluetooth 3.0 / 4.1: 2402 – 2480 MHz

Recycling Your Device Properly

■ In some areas, the disposal of certain electronic devices is regulated. Make sure you dispose of or recycle your device in accordance with your local laws and regulations. For information about recycling your device, go to www.amazon.com/devicesupport.

5GHz帯(W52, W53)は屋内利用に限る(高出力システムと通信する場合を除く)

5GHz band (W52,W53): Indoor use only (except communicate to high power radio)
