

To whom it may concern

## Product marking on D-FA hearing aid.

Brand name "Widex" is printed on the shell  
(not shown on picture)

Other product identification is laser engraved on marking plate

The D-FA model is available in 4 different feature levels "440, 330, 220, 110".

Feature level 440 has the highest level of functionality while level 330, 220 and 110 have various audiological features disabled or restricted by software switch limitation.

Widex A/S hereby declare that all D-FA feature level variants are identical in all other aspects, hereunder same hardware and therefore have identical electrical/electronic characteristics including EMC, Electrical safety and Radio performance. Conformance testing is done on feature level 440 test units.

Sincerely,

10 January 2013,

Date,

Hans-Otto Bindeballe, Certification Mgr.
